Lorain County Sheriff

RE: Sexual Offenders Registrations

As directed by the Ohio Supreme Court, the Ohio Attorney General's Office has begun to remove people from the sex offender registry whose duties to register as a sex offender have expired.

The Attorney General's Office will contact them as they are removed from the registry. After that is completed over the next several weeks, the Attorney General's Office will contact offenders who remain on the registry but who will have new classifications as a result of the Supreme Court's decision.

We recommend offenders continue reporting until their status has been finally determined.
